“ Sending hugs and prayers to all of you. Brian told me the other day of Uncle Tommy's passing.  
I have many fond memories but one that sticks out is a trip through the Carberry Desert in the Jeep! I was thinking we were lost and would never be found...not sure if it was my over-active imagination or if your Dad was goofing around with us but I was sure glad we made it out safely. I still have a little scar on one finger that reminds me of one time I closed the Jeep door on my hand.  
Mostly I remember his smile and how kind he always was. You were certainly blessed to have him in your lives.

I have enjoyed reading all of the wonderful tributes through this site as well as through Facebook; memories of a kind and compassionate Dr that provided dedicated service in our community and took him away from home numerous times. “ Sending my deepest condolences to Rena, Pauline, Kathryn, Thomas, Geraldine and their families.  
I have many memories of Dr. Morrison as he was our doctor and family friend. From his humming, jokes, first one to pierce my ears, to making house calls when we were sick, he was very much part of my youth.  
When I was around 10 years old, Dr Morrison took out my tonsils. Before I went under I asked if he would keep them as my dad wanted them for fish bait! Sure enough when I woke up they were in a tiny jar beside my bed! We laughed about this for years as I am laughing now thinking of Dr. Morrison actually doing this.  
When my dad was diagnosed with cancer, Dr. Morrison knew how much dad disliked hospitals. He gave dad his wish to die at home, Dr. Morrison sat with my father for hours as a friend and as his doctor which I am forever grateful.  
Thank you Dr. Morrison for all you had done for our community and for our family.

“ I am deeply saddened by is news. Having I would have know that he and his family had relocated in High River, I definitely would have made the drive south to say thank you for his care during the many time of my youth that his services were required not to mention the rest of our family. He was an admirable man and was deeply respected by the Carberry community. My condolences to his family.

“ I was so sorry to hear about your Dad. My best holiday was when our families went together and I got to ride in your car with you (the cool car) .I remember many days after school heading to your house for chocolate milk and cookies and your Dad with his classical music blasting. When my Dad was so sick and my Mom and I were scared and how I called your Dad and he came over to our house to comfort us. He was one of a kind. Love to you all!!
